Project repo:

<https://github.com/ThomasRotchford/CS386-2024-multiPainter>

Activity Tracker:

Start: 3:35

Finish: 4:35

## **Recap of last week**

**Mathew worked on home page and community tab**

**Hunter worked on buttons and premade templates**

**Thomas worked on database**

**Colton worked on profile page**

**Aiden worked on database**

## **Goals for next week summarized**

**Same as last week**

**Mathew will work on the home page and community tab again**

**Hunter will work on the settings**

**Colton will work on the profile page**

**Aiden will work on the submit button**

**Thomas will work on the database**

## 01. The first item

How is the database going to work?

## 02. Second item

Discussed potential use of icons in the UI

## X. Retrospective

It was a busy week for everyone

Major kudos to Aiden for figuring out how to use the create query successfully
