Minutes for group meeting 8

Group 04 – MultiPixel

Date and location: Mar 21, 2024

Present participants: Aidan Trujillo, Matthew Gardner, Thomas Rotchford, Colton Leighton, Hunter Beach

Missing participants: None

Facilitator: Hunter Beach

Archivist: Aidan Trujillo

Scrum Master: Thomas Rotchford

Project repo: https://github.com/thomasrotchford/CS386-2024-multiPainter

Activity Tracker: https://docs.google.com/spreadsheets/d/1k_Ddci07JBphozZY25Jxe7VHrcLbBTRGaaPFtW-F99Y/edit#gid=414978427

Start: 3:30PM

Finish: 5PM

1. Summary of activities

1.1 Deliverables We are working D.4 and assigning parts and completing parts together.

1.2 Code

We still worked on coding in react and html as well. We are working on coding multiple websites.

2. Retrospective

(i) Appreciations: We were able to get a good midterm presentation with a working demo in HTML.

(ii) Successes: HTML webpages are being made for different functions, they now just need to be linked

(iii) What didn't go so well: we were unable to convert html to react smoothly.

(iv) Barriers: We are unable to hook up a database without the main webpage.

(v) What we should try next time: Seeing what a functioning react app looks like and what a non functioning one looks like.

3. [Include here the other items that need discussion]

There was a discussion on divisions to different parts of D4.

What webpages we needed to be made which were sign in and navigation primarily.

We also worked on getting a domain and purchasing the rights as well as uploading that to our web server so that we have an name friendly website.

4. Planning

Week 8							
Meeting 8 (Thomas, Aiden, Hunter)							
Get Website to React	Development	8		Aidan	2		Ongoing
Purchase a domain	Delivery	8		Matthew	0.5		Ongoing
Create a Sign in	Development	8		Colton	2		Ongoing
